

Is managing your POCT making you insane?

Presented by: Dr. James H. Nichols
Webinar Stats

What worries do you have about the future growth of POCT in your program?

Having too many testing personnel in your program

28%

Which item stresses you the most as a POCC?

31%
Training and competency

Are you guilty of eating at your desk at work?

70%
YES!

If you could have one wish to make one aspect of your program absolutely perfect, which aspect would you choose?

34%

Training and competency always completed on time and properly documented

Policies and procedures review and revise themselves every two- or three-year cycle	1%
Annual validations/calibration verification/patient correlations/proficiency testing is completed accurately and on time	7%
Operator management processes: All operators are entered into all your systems and instruments—magically, of course	4%
All the above—it's time for a vacation	48%

Simplify the management, administration, and integration of POCT with Orchard Trellis.
